

Product: **Spray-Dried**
Acacia Senegal (E414)
(Indicative Typical Values)
Document Code: GD-TDS-SD-SEN-02
Revision: 02
Date: April 2026

1. Product Identification

Product Name: Spray-Dried Acacia Senegal
Botanical Source: Acacia senegal
E Number: E414
CAS Number: 9000-01-5
Origin of Raw Material: Sudan
Processing: Spray-dried (UK facility)
Appearance: Fine off-white to light cream powder
Odour: Neutral
Taste: Neutral

2. Physical & Chemical Characteristics

(Typical Values – Not Specification Limits)

Parameter	Typical Value
Purity (dry basis)	≥ 99%
Moisture Content	≤ 10%
Total Ash	≤ 4.0%
Acid Insoluble Ash	≤ 0.5%
pH (1% solution)	4.0 – 5.5
Particle Size	controlled by sieve analysis (details available on request / COA)
Solubility	Completely soluble in water
Viscosity (10% solution, 25°C)	Low viscosity profile

3. Microbiological Profile

(Typical Values)

Parameter	Typical Value
Total Plate Count	< 10,000 CFU/g
Yeast & Mould	< 100 CFU/g
E. coli	Absent
Salmonella	Absent in 25g

4. Functional Properties

- Excellent oil-in-water emulsification capacity
- Effective film-forming and coating properties
- Low viscosity at high solids concentration
- Stable across a broad pH range
- Neutral flavour profile
- Suitable for spray-drying and encapsulation systems

5. Applications

Suitable for use in:

- Beverages and flavour emulsions
- Confectionery and glazing systems
- Nutraceutical and dietary supplement formulations
- Pharmaceutical excipient applications
- Industrial binder and coating systems

Customers are responsible for validating performance in their specific formulations.

6. Packaging

- 25kg multi-layer food-grade paper bags with inner polyethylene liner
- Other packaging formats available upon request

7. Storage Conditions

Store in a cool, dry place.

Protect from moisture, humidity, and direct sunlight.

Keep packaging tightly closed after opening.

Recommended storage temperature: below 25°C.

8. Shelf Life

24 months from date of manufacture when stored under recommended conditions and in original unopened packaging.

9. Regulatory & Compliance Status

- Food-grade
- E414 compliant
- HACCP-aligned processing
- ISO 22000-aligned facility
- Non-GMO
- Halal and Kosher certification available upon request
- Full batch traceability from origin

10. Disclaimer

The information provided in this Technical Data Sheet represents typical values and is intended for guidance purposes only. This document does not constitute a product specification and does not guarantee performance in specific applications.

Batch-specific analytical results are provided via Certificate of Analysis (COA). Customers are responsible for determining product suitability in their own formulations and processing systems.
